

MAHMOOD KHAN (AKA SALMAN)

Front End Developer

+91 8770610887 @khanmahmood444@gmail.com www.thesalmankhxn.com Bhilai, Chhattisgarh, India

SUMMARY

I am a dedicated Front End Developer with a strong background in transforming complex designs into responsive and user-friendly web applications. My experience includes developing advanced functionalities that enhance user experience, and I am proficient in modern frameworks and tools such as React, NextJS, and Apollo Client. My passion for mentoring others and advocating best practices makes me a strong team player

EXPERIENCE

Front-end Developer

Prosperix

10/2020 - Present Remote

A company focused on creating innovative workforce management solutions

- Developed a dynamic data table with advanced functionalities (e.g., column reordering, resizing, visibility, and customizable table size) for integration into all listing pages of the new application, enhancing user experience and data presentation
- Implemented caching mechanisms across all listing pages using Apollo Client with GraphQL, resulting in significant reduction of loading times and elimination of repetitive loading spinners
- Designed and implemented a UI state persisting feature for listing pages, allowing users to retain customized table orders, visibility settings, view preferences (card/table), and filters across sessions
- Engineered a versatile form for a job approval workflow, enabling easy configuration of workflows with drag-and-drop functionality
- Advocated for the adoption of Tailwind CSS over styled-components after identifying performance issues, leading to enhanced UI development practices and performance optimizations within the company
- Introduced react-query for more efficient server state management, enhancing application performance and scalability
- Developed composable components for a global widget-based UI, promoting reusability and consistency throughout the application
- Developed a global wrapper component for react-select using Popper.js to address positioning issues effectively
- Work closely with Product Managers to translate product requirements to engineering specifications
- Train/mentor the new interns about React and Analytics

Junior Front-end Developer

Persistence Athletics

07/2019 - 09/2020 Remote

A company focused on sports and athletic management solutions

- Played a key role in migrating a legacy bank application to React, contributing to the modernization of the platform and improving user experience
- Turn mock-ups into HTML and CSS
- Developed a comprehensive user details form using react-hook-form

EDUCATION

Bachelor of Computer Applications

Durg University

08/2016 - 06/2019 Bhilai, Chhattisgarh, India

Senior Secondary

SSAV

04/2015 - 03/2016 Bhilai, Chhattisgarh, India

STRENGTHS

Front End Development

Proficient in designing user-friendly web interfaces and implementing efficient state management solutions

KEY ACHIEVEMENTS

Dynamic Data Table Development

Successfully developed advanced user interface functionalities that significantly improved user interactions and reduced loading times

Strong JavaScript skills, including DOM manipulation Experience with popular React.js workflows (Redux)

Redux, Zustand

React-Query for Data Fetching

Introduced react-query for more efficient server state management, enhancing application performance and scalability

Standardization of UI Elements

Requested the UI designer to follow standardized components and design styles for consistency

SKILLS

React-Query	Redux	Zustand	CSS
Git	GitHub	GraphQL	HTML
JavaScript	Linux	Next.js	React
Tailwind	TypeScript		
Visual Studio Code	Node.js	NestJS	
PostgreSQL	SCSS	Cursor
